PORTFOLIO WEBSITE

❏ Having a strong online presence is essential for success in the modern digital era. Professionals in creative industries like design, photography, and writing are disproportionately affected by this. A portfolio website acts as a digital presentation of your work, making it simple for prospective clients or employers to see and assess your qualifications.

❏ A portfolio website not only gives you a place to show off your work, but it also enables you to build your personal brand and set yourself apart from rivals. You can draw in customers who are specifically seeking what you have to offer by showing your own approach and style. As a hub for your online activities, a portfolio website can also link to your social media networks.

AGENDA

❑ To Create a Beautiful HTML,CSS and Bootstrap Portfolio

❑ Project Overview

❑ End Users for project

❑ Specials in My Portfolio

❑ Modeling

❑ Results

PROJECT OVERVIEW

A portfolio website is a digital platform where you can display your accomplishments, abilities, and work. You can use it to showcase your work to potential clients, employers, or colleagues by using it as a digital portfolio or resume. Here are some important factors to take into account while building a project overview for your portfolio website:

- HOME

- ABOUT OR BIO

- SERVICES

- WORK

- BLOG

- RESUME

- CONTACTS

WHO ARE THE END USERS OF THIS PROJECT?

- My intended audience, or end user, is anyone searching for a straightforward portfolio.

- This project is for those who want seamless transitions and detailed representations of all the data.

- This project can be used by those who are looking for various CSS styles for their images that they plan to showcase.

OUR SOLUTION AND ITS VALUE PROPOSITION

Contact Information and Call to Action:

❑ Include our email address, phone number, and links to our social media profiles as well as other clear and visible contact information.

❑ Include a contact form on your website so that site visitors may email us directly.

❑ Implement a compelling call to action that inspires visitors to contact us or learn more about our mission.

Mobile-Friendly and Responsive:

❑ A responsive design that adjusts to various screen sizes and devices was implemented.

❑ To ensure consistent performance, test our website on multiple hardware and browser combinations.

❑ Display Your Workcreated a section just to display our portfolio items, complete with pictures, descriptions, and connections to active projects.

❑ Use a grid or gallery arrangement to present our projects in an orderly and eye-catching way.

VALUE PROPOSITION

❑ We can increase visitors' levels of trust and trustworthiness by including testimonials and other forms of social proof.

❑ The overall user experience will be improved with a responsive and visually appealing website, which will entice users to learn more about our work and get in touch.

# HOW DID YOU CUSTOMIZE THE PROJECT AND MAKE IT YOUR OWN

My portfolio includes the following features:

❑ Fully Responsive

❑ Mobile Navigations

❑ Effortless scrolling through each area.

❑ Each part scrolls smoothly.

❑ Sticky Scrolling Navigation and Clear Image Revealing with Adaptive Screen Sizes.

MODELLING

❑ A website was created for layouts and data representations using 84% HTML language.

❑ A website was created for transitions, representational styles, and user interface using 16% of the CSS language.

❑ Several HTML codes, such the navigation bar, buttons, footer, and social media icons and symbols, are made using Bootstrap.5 Frameworks.

Languages

HTML 84.3%   CSS 13.1%

RESULTS

- **These are the results I was able to record.**

CONCLUSION

❑ Finally, for any aspiring web developer or designer, building a portfolio website using HTML, CSS, and Bootstrap is a crucial step. You can boost your visibility and draw in potential customers or employers by presenting your abilities and projects in an online setting.

❑ We have discussed the value of having a portfolio website throughout this presentation, as well as the fundamentals of HTML and CSS and the advantages of using the Bootstrap framework. You have all the resources you require to build a beautiful and useful portfolio website that will make you stand out from the competition with these tools and knowledge.
